

FEMALE BUSINESS ACADEMY VISION

It's the end of April 2020 and the Female Business Academy has gone truly global. With well over 3000 members, from countries all over the globe, the Academy is supporting thousands of female entrepreneurs to build businesses that are having a truly positive impact on the world. Successful businesses have been built in the realms of education, empowerment, equality, personal growth, spirituality and wellbeing. The impact of these combined businesses is reaching hundreds of thousands of people.

The Academy has a line-up of inspirational and knowledgeable female teachers offering classes that cover every part of what it means to create and build a successful and meaningful business. We have an amazing team of happy and fulfilled female support staff whose roles cover client astonishment and connection, technology, administration and systems, project management and branding and design.

As the founder of the Academy, I model what it means to build a successful business without selling your soul and have plenty of time to spend with my family, travelling, making art and generally taking time away from the computer screen. Me and my team are well paid, love our work, enjoy a healthy work-life balance and many of us are also mothers. Although the Academy is online - I regularly give talks and speeches on what it means to be a successful female entrepreneur whilst maintaining a healthy work-life balance.

The business generates 1,000,000 euros a year in sales and 10% of the net income is donated to charities and projects that support the education and empowerment of girls and women around the world. The Academy is well known for it's charitable work. In fact pretty much everyone who comes into contact with the Academy (including students, teachers, staff, charities, the wider public) feels deeply inspired and empowered by the work of the Academy and what it offers and does in the world.
